D. John Hargrave,

Alice Springs

career - medical - man,

24.10.58

Derwin.

N.T.

Sir

It is advised that (the loaned)
"The Labours of Hercules" has
arrived safely - for which we thank
"We" regret to inform you
that "Sir Calahad Ampari"

so obviously - died of some
violent "killers" in N.S.W. or
Tasmania? (of character) "(& an "old" man)"

Being a tough guy ^{you} ^{host}
may not regret this man's
(of ^{pride to Sydney influence} ideal Albionism) death
as much as I do. Unlike my
opinion of most doctors, I admired

3 White & Potts who have been
"uplifted" to the White Labour
Section (of N.A.W.U.) are
branded as being "full blood" !!!
But no mention is made ^{"Unionists"} of
the fact that they are "Assimilation
Quineas" !!! (not full-blood families)
They both have mixed-
blood wives! And consequently
are breeding mixed-blood
(for Quise & Hasluck)

AND the mission

Especially R.C. ones & R.C. votes !!!
(The Vatican's Political Cunning)
Candidates

I loathe Shams
(And Roman Catholicism)
(as one of the worst
of shams - (800 million "Catholic" !!!))

N.O. 3 Suppose
the dead absorptions,
brain will show
be removed when in
hospital for export
to write these on it

For both you and Dr. West
N.O. 2 I would
prescribe a Refresher
course in the medical
literature of the Stos of
San. Michele in 1117

EVENTUALLY —
P.S. — I hope I shall get back
my friend again. — Later. But

ONLY AFTER
the Arnhem Land BUSH has
disinfected (+ cured) the "germ"
(he calls ~~it~~ "made my self grow
up" (!!!)) from which he is
suffering a (severe) infection
"caught" (in Sydney. (+ Hobart?))

I am shocked, & sore & hurt
— beyond words. (I had so looked forward
to your visit). And so sorry at the
P.S.² you said I was "like my
grandmother"! (She would not
feel flattered! — if you mean
physically. (28 months ^{fight with tuberculosis} from a tent —
did that). But if you meant mentally
then, you have one left in the grave"
— compared with me. A sophisticated

N.B. A number of very relevant facts
emerge from the TIMING of the
"neanderthal", "ape-like" - heads & "small
brains" ^(? spelling) of the full-bloods ("facts")
But ~~not~~ when a conscienceless
"white" man & an opportunist
full-blood woman - adopt the
roles of "combo" & prostitute - respect
& produce mixed bloods for
whom the "white" man (as a rule)
takes no responsibility. — And
the Welfare Dept gets Baby Bonuses
& later Child Endowment for
the children that the aborigine
repudiate — as aboriginal!

("white man's kids") ^{but "not a week"}
II. When adequate wages are
demanded for work done by
ONLY ^{full-bloods} them have the "ape-like
(or worse) brains"!!!!

III 2 I am not going to supply either
name of plant - or the University.
But this is an example of the
"Superior" ("LARGER") "white" brain.
^(Small) A plant that grows in every state
(+ N.Y.) in Aus. is being "studied"
at a University to see if the
name (Linnaeus probably) gave it
should not be changed!

Is it "jonesii" or should it
not be "Smithii" is the "problem"
that is worrying that BIG WHITE
(University) BRAIN. BUT

- The "monkey-like" aborigines: -
- (1) Have a name for it. (in each tribe)
 - (2) Know its habitat
 - (3) Know how it can be used for
their benefit.
 - (4) And can admire it
aesthetically (which is more than
most botanists do!)

Tell Webb (+ his like) Dick Ward
+ Jim Bowditch
- "Bo".
that it is fine character that is
needed in H.T. (+ all over the
world.)

NOT
larger "brains"! (Or liquor)

To plan mass murder: (by atomic
means): + more noise: } atomic
+ more speed: } radar
+ more luxuries:
+ more synthetic:
} Good
+ more PEOPLE } Synthetic
+ more swivel-blood }
} Assimilation } extermination

And more Christianity } Synthetic
= "Civilization" } Shams-
"Democracy" } - all.

N.B. The new Pope won't be chosen for
his "saintliness"! But as a ^{stage} "backer"
of Chiang Kai-Shek (?) - + Quemoy!!!
(? spelling)
