Dear John Harpore!

Are you back
in Darwin yet?

If you are let me know;
& if not, ^{then} as soon as you
return from your travels
& investigations abroad.

(I do want to hear about
them! - & if any of the "weaker
sex" has caught you yet!!!)

But I also want to ask you
about Darwin dentists!!! (Their
standards - in making dentures.)

I have recently paid £12 for
a quite useless "upper plate" -
made by D. Meldrum, here.

(I like him - but think him an

3 utter fool - in regard to dentures.

I have planted the loofa seeds
you gave me when last in
"the Allasse" - but they seem to
grow very slowly.

Perhaps they are tropical
& don't like our (at times)
"Antarctic" weather? I did.

I hope you had a most
enjoyable "tour" - (if you are
back?) And are continuing to
have it - if you are still
away.

kindest remembrance.

ours sincerely

Olive Pitt

P.S. Do pay "the Alice" a visit
on your return & come
over here for the evening meal
& a long chat - under the
stars (& moths! & skeets!)
